## Transmit our passion, share our terroir

Christine comes from a family of independent winegrowers and winemakers who has been in business for 10 generations. She elaborates champagnes as naturally as possible, rare, atypical and of character, from the unique clay-limestone terroir of Vincelles, with passion, dynamism and generosity.

Certified High Environmental Value (HVE) in early 2015 and Organic Agriculture since 2023, we are committed to sharing with you the secrets of this unique terroir in the Marne Valley, which we cherish as much as we protect.

Located just an hour from Paris, we invite you to discover the very essence of our terroir by welcoming you to our wine-tasting room, housed in the old village school, which has been transformed into an authentic, relaxing place with a breathtaking panoramic view over the Marne Valley.

We are eager to share our passion with you, through tours where innovation and tradition meet. Come and discover the winegrower's craft, from vine to bottle, by immersing yourself in our vines, our press center, our tank room and our cellar, and learning about the different stages in the production of our champagnes. You'll know more about our sustainable practices and the particularities of our atypical winery's vinification containers.

Here, the experience goes far beyond simple tastings, and the possibilities are endless.

Explore our vineyards via geolocated walking itineraries on your smartphone, learn the art of wine tasting and discover the work of the vine during funny and participatory workshops. Enjoy our gourmet picnics, tailor-made for our champagnes, and take advantage of our many events throughout the year (Open House, Wellness Weekends, Concert, Harvester for one Day).

Vignobles & Découvertes label:

This label is awarded to a tourist and wine-producing destination offering a wide range of complementary tourist products (accommodation, restaurants, cellar visit, tasting, event...) allowing the customer to facilitate the organization of their stay and direct them to qualified wine tourism services
